EDUCATION

Florida International University

Miami, FL

Bachelor of Science in Computer Science

August 2023 - May 2027

Coursework: Programming I–II, Data Structures & Algorithms, Systems Programming, Calculus I–II

Organizations: Sigma Lambda Beta International Fraternity, Inc., INIT

TECHNICAL SKILLS

Languages & Frameworks: Java, C, Python, JavaScript, C#, HTML, CSS, React, Gatsby JS, Tailwind CSS, ASP.NET, Bootstrap

Certifications: Certiport's Java Information Technology Specialist

RELEVANT EXPERIENCE

Software Engineer

May 2025 - Present

Sigma Lambda Beta Education Foundation, Inc.

Remote

- Maintain and improve an **ASP.NET/C#** contribution portal, ensuring reliability and a user-friendly interface.
- Implement payment processing via the **Authorize.NET API** to facilitate secure charitable contributions.
- Develop **C# unit tests** and automated **CI pipelines** to run tests on every commit.

Tech Lead, Sophomore Summit

May 2025 - July 2025

BNY

Remote

- Led a 5-member team in a mock IPO coding challenge—designed and presented a **Python** share-allocation algorithm based on bid price, timestamp, and demand to senior engineers.
- Collaborated in fintech workshops to refine solutions and integrate feedback.

Software Engineer Intern

May 2024 - July 2024

Domus Care Solutions

Weston, FL

- Developed a secure **Java** application to format sensitive patient data for internal use.
- Designed a modern UI using Java **Swing** and **FlatLaf** for an enhanced user experience.
- Partnered with data analysts to improve report generation, boosting accuracy and efficiency.
- Reduced manual data-sorting time by over **8 hours** per week, significantly improving productivity.

PROJECTS

365 Days – Anniversary Website | *HTML, CSS, JavaScript, Node.js, Git LFS*

- Built a responsive digital album with secure date-gated entry, seasonal organization, and sidebar navigation for seamless browsing
- Automated asset processing with **Node.js**, ImageMagick, and ExifTool scripts to rename, compress, and manage **500+** media files (1.3 GB) using **Git LFS**
- Enhanced performance and UX with lazy loading, responsive media delivery, background music playback, and smooth CSS Grid/Flexbox layouts achieving **100%** Lighthouse performance and accessibility scores.

Greek Calendar | *Python* | Slack API, Google Calendar API, Git

- Built a Slack app using **Python** and **Google Calendar API** to automate event creation, eliminating manual scheduling for **15+** chapter members.
- Reduced coordination overhead through real-time calendar syncs, streamlining event planning and improving attendance.

MedVoyage | *HTML, CSS, JavaScript* | Git

- Designed and built a medical diagnosis web app that placed **3rd** out of **240+** projects at ShellHacks 2023
- Coordinated between front-end and back-end teammates to ensure seamless integration, using Git/GitHub for collaboration
- Implemented parallax scrolling animations with CSS to enhance visual design and user engagement

LEADERSHIP/SERVICE

President: Serve as President of the FIU chapter of Sigma Lambda Beta International Fraternity, Inc. | 2024-Present

Volunteering: Led a team of 43 members of the National Spanish Honor Society that achieved more than **1,600 hours** of tutoring to students in EL (English learning) and ESOL (English to Speakers of Other Languages) | 2022-2023
